ONWUZURUIGBO EMMANUEL CHIDIEBERE

SOFTWARE ENGINEER | FRONTEND DEVELOPMENT | REACT | TYPESCRIPT

onwuzuruigboemmanuel991@gmail.com | +234 810 009 9314 | Lagos, Nigeria | www.emmanuelchidiebere.com

PROFESSIONAL SUMMARY

Frontend-focused Software Engineer experienced in building, deploying, and maintaining production web applications using React, TypeScript, JavaScript, and modern web technologies. Delivered a React-based corporate website, a nationwide QR-code fuel voucher platform supporting 10+ fuel stations and 200+ successful redemptions, and an administrative dashboard for voucher search, record inspection, current/archive tracking, and CSV export. Also builds enterprise workflow automation solutions and brings a software quality assurance background across fintech and business systems.

TECHNICAL SKILLS

Frontend Development: React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, responsive design, reusable components
Application Development: Google Apps Script, Google Sheets integration, administrative dashboards, REST API integration, business process automation
CMS & Enterprise Platforms: Sanity CMS, Firebase, WordPress, SharePoint, Power Apps, Power Automate
Testing & Quality: Functional, API, integration, regression, smoke, sanity, exploratory, end-to-end, UAT, load and performance testing
Tools & Practices: Git, Postman, Apache JMeter, Agile/Scrum collaboration, troubleshooting, requirements analysis, stakeholder collaboration

PROFESSIONAL EXPERIENCE

Web Technology and Programming Officer | April 2025 – Present

Eterna Plc | Lagos, Nigeria

- Rebuilt Eterna Plc's corporate website using React, Tailwind CSS, Sanity CMS, and Firebase, delivering a maintainable CMS-driven architecture that enables non-technical teams to manage website content.
- Designed and developed a nationwide QR-code fuel voucher platform using JavaScript and Tailwind CSS, supporting 10+ fuel stations and 200+ successful redemptions; eliminated paper-based processing and achieved a reported 99% reduction in manual processing errors.
- Developed an administrative dashboard for voucher lifecycle management, enabling voucher search and filtering, detailed record inspection, current and archived voucher tracking, and CSV data export.
- Built and deployed a business workflow automation application using SharePoint, Power Apps, and Power Automate to digitize vendor and customer onboarding on the ERP system, replacing multi-stage email approval chains.
- Maintain and optimize company WordPress websites by restructuring pages, removing redundant code and page elements, troubleshooting frontend issues, and improving maintainability.
- Work directly with business stakeholders and branding teams to translate requirements into functional solutions, validate changes, and support production deployments.

Freelance Web Developer | February 2024 – March 2025

Self-employed / Contract | Remote

- Designed and built responsive client-facing websites and web applications using React and Tailwind CSS for e-commerce businesses and SMEs.
- Delivered 3+ responsive web applications, translating UI direction into functional interfaces and reusable components across desktop and mobile devices.
- Collaborated with development teams on contract projects to implement and refine frontend experiences.

Software Quality Assurance Engineer | November 2022 – December 2023

ITEX Integrated Services | Lagos, Nigeria

- Executed functional and non-functional testing across 20+ enterprise financial applications, collaborating with developers to identify, report, troubleshoot, and verify defects before production releases.
- Performed API testing and end-to-end validation for 7+ REST APIs supporting payment terminals and fintech applications, including HabariPay, Zenith PayWithTransfer, Access Bank PayWithTransfer, and ITEX Stock Application.
- Led user acceptance testing (UAT) sessions and worked with clients and development teams to resolve reported issues and support successful releases.
- Performed load and performance testing using Apache JMeter to evaluate application reliability under high transaction volumes.
- Provided frontend-focused QA feedback on layout consistency, browser/device behavior, and user workflow clarity.

Server Officer / Software QA Engineer Intern (NYSC) | January 2022 – November 2022

ITEX Integrated Services | Lagos, Nigeria

- Managed server operations and provided cross-departmental IT support to staff.
- Reported defects, verified fixes in production environments, and monitored server performance while working alongside senior QA engineers.
- Earned promotion to full QA Engineer after learning structured testing processes and supporting QA activities.

Customer Service / IT Support Intern | January 2020 – June 2020

WEMA Bank | Port Harcourt, Nigeria

- Supported mobile banking platform issues, debit card issuance, and ATM troubleshooting and maintenance activities.
