Onwuzuruigbo Emmanuel Chidiebere

Frontend Engineer | React | Typescript

onwuzuruigboemmanuel991@gmail.com | +2348100099314 | Lagos, Nigeria | www.emmanuelchidiebere.com

PROFESSIONAL SUMMARY

Frontend Engineer with hands-on experience building responsive, production-ready web applications using React, TypeScript, JavaScript, and Tailwind CSS. Experienced in developing business and customer-facing platforms, translating requirements into functional interfaces, and working directly with stakeholders from concept through delivery. Built and deployed production solutions including a React-based corporate website, a nationwide QR-code voucher platform supporting 10+ fuel stations and 200+ redemptions, and enterprise workflow applications using SharePoint and Power Platform. Strong software quality assurance background with experience in API, functional, and performance testing, bringing a quality-focused approach to frontend development.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS

CMS & Business Automation: Sanity CMS, SharePoint, Power Apps, Power Automate

Design & UX: Responsive design, Tailwind CSS, accessibility-focused UI

Tools & Workflow: Git, Postman, Agile/Scrum collaboration

PROFESSIONAL EXPERIENCE

Web Technology and Programming Officer

Eterna Plc | Lagos, Nigeria *April 2025 – Present*

- Independently manage and restructure content across company WordPress sites, debloating pages and removing redundant code to improve site performance and maintainability.
- Coordinate directly with business stakeholders and the branding team across departments to translate requirements into functional, accessible web platforms, working solo from requirements through delivery.
- Independently designed and developed a nationwide QR-based fuel voucher platform using JavaScript and Tailwind CSS, currently supporting 10+ fuel stations with 200+ successful voucher redemptions. Eliminated paper-based voucher processing, improved transaction tracking, and achieved a 99% reduction in manual processing errors.
- Independently built and deployed a business workflow automation app using SharePoint, Power Apps, and Power Automate to digitize vendor and customer onboarding on the ERP system, replacing multi-stage email approval chains and reducing inbox congestion.
- Rebuilt Eterna PLC's corporate website using React, Tailwind CSS, Sanity CMS, and Firebase, delivering a modern, CMS-driven architecture that enables non-technical teams to manage website content while improving maintainability and scalability.

Freelance Web Developer

Self-employed / Contract | Remote *February 2024 – March 2025*

- Partnered with development teams to design and build responsive, client-facing websites using React and Tailwind CSS on a contract basis.
- Delivered **3+** responsive web applications for e-commerce businesses and SMEs using React and Tailwind CSS.
- Converted UI designs into reusable frontend components while ensuring responsive layouts across desktop and mobile devices.

Software Quality Assurance Engineer

ITEX Integrated Services | Lagos, Nigeria *November 2022 – December 2023*

- Executed comprehensive functional and non-functional testing across over 20 enterprise financial applications including the ITEXPay Admin Dashboard and more across Nigeria and African markets, collaborating closely with developers to identify, report, and verify software defects before production releases.

- Performed API testing and end-to-end validation for over 7 REST APIs supporting payment terminals and fintech applications, including HabariPay, Zenith PayWithTransfer, Access Bank PayWithTransfer, ITEX Stock Application, and other client-specific payment solutions.
- Delivered frontend-focused QA feedback on layout consistency and user workflow clarity to improve product usability.
- Led user acceptance testing (UAT) sessions, resolving client-reported issues on time to support successful releases.
- Performed load and performance testing using Apache JMeter to simulate high transaction volumes and evaluate application reliability under heavy usage.

Server Officer / Software QA Engineer Intern (NYSC)

ITEX Integrated Services | Lagos, Nigeria *January 2022 – November 2022*

- Managed server operations and provided cross-departmental IT support to staff.
- Worked alongside senior QA engineers to learn structured testing processes, earning promotion to full QA Engineer.
- Reported defects and verified fixes directly in live production environments.
- Monitored server performance to maintain high uptime and reliability.

Customer Service / IT Support Intern

WEMA Bank | Port Harcourt, Nigeria *January 2020 – June 2020*

- Supported mobile banking platform issues, debit card issuance, and ATM maintenance troubleshooting for staff and customers.
- Supported ATM troubleshooting and basic maintenance activities, helping minimize service disruptions.
